EXAMINER'S AMENDMENT

1. The application has been amended as follows:

1.1 In claim 1, in line 4, replace "formula (1):

with — formula (1):

STATEMENT OF REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The most pertinent prior art known to the Examiner is listed on the attached forms PTO-892 and 1449. As shown by Glatkowski et al., Eikos, Inc., or Chen et al., the close prior arts of record, a carbon nanotube composition that includes conducting polymers, a water solvent component and carbon nanotubes are well-known. Furthermore, Mitsubishi '930 or Mitsubishi '739 teach the specific conducting polymer. However, none of the prior art of record including

Glatkowski et al., Eikos, Inc., or Chen et al. and Mitsubishi '930 or Mitsubishi '739 provides sufficient suggestion or motivation to include the specific silane component of formula (1) with each of ingredients as required in the present claims. Accordingly, the claimed invention, as a whole, would not have been obvious to one of ordinary skill in the nanotechnology art. None of the prior art of record teaches, discloses or suggests the composition with all four ingredients - (1) a water soluble conducting polymer with an acidic group, (2) a water solvent, (3) carbon nanotubes and (4) the specific silane component in the manner as those recited the present claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
